DEPARTMENT OF FASHION TECHNOLOGY

GUEST LECTURE ON SUSTAINABILITY & ECOLOGY IN TEXTILE PROCESSING

A view of dignitaries on the stage Dr. Ruma Chakrabarti, Mr. Alok D Sharma, Dr. K. Saravanan, Principal,

The department of Fashion Technology in association with Society of Dyers and Colourists (SDC) India organised a guest lecture on “SUSTAINABILITY & ECOLOGY IN TEXTILE PROCESSING” on 06.02.2016. Dr. Ruma Chakrabarti, Senior Manager R&D, M/s Sharadha Terry products Ltd, Coimbatore and Dr. Alok D. Sharma, General Manager (Q.A), Ramkumar Mills Pvt. Ltd, Bangalore were the resource persons. Dr. S. Sakthivel, HoD In-Charge of Fashion Technology department welcomed the gathering. Dr. K. Saravanan, Principal ACET, in his special address motivated the students to update their knowledge and to apply it into the research activities.

Around 120 participants including members from industry, 2nd, 3rd and final year students of fashion technology attended the programme. In the first session, Dr. Ruma Chakrabarti presented about SDC and its future activities. She gave details about SDC membership, qualifications and emphasized the special benefits available to student members for their development. She briefed on “Ecological requirements, compliance and sustainability. She also explained about the impacts of textile processing on the environment. More than 2000 different types of chemicals are used in various stages of processing like sizes, deforming agents, scouring agents, dyes and other functional chemicals to arrive at the final finished textile product. She also talked about recycling, reducing waste, use of renewable energy and cradle to cradle concepts to enhance the sustainability and improve the ecological compliance of the textile supply chain. She showed many awareness videos regarding environmental pollution which educated students to safeguard human beings from hazards by recycling.

Mr. Alok D. Sharma gave his presentation on Ecology, Ecosystem, Ecological foot print and its current status of sustainability with examples, the alarming magnitude of water and energy requirement of textile processing, etc.. Then he gave a brief account of Rapex (Rapid Alert System) used by EU nations for getting information of banned substances found in the textiles articles sold in EU market. He presented some of the past and recent cases of Banned substances found and also the effect of some of the banned substances on human health. He elucidated the scenarios of waste water contamination, which lead to the formation of ZDHC group by some of the brands. He gave a brief account of ZDHC program history & its development till now, their vision, mission & goals. Then he explained the importance of Effective Chemical management and gave a brief idea about key focus areas developed by ZDHC Roadmap ver 2.0: MRSL; Research, Audit Protocol and Wastewater Quality along with the need for appropriate training and Effective Data Sharing. Finally the session ended with vote of thanks to everyone.
